**CHOU ASIA FUND**

**CHOU ASSOCIATES MANAGEMENT INC.**

This interim management report of fund performance contains financial highlights but does not contain the complete financial statements of the Fund. You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling Toll-free: 1-888-357-5070, by writing to us at 110 Sheppard Ave. East, Suite 301, Box 18, Toronto, Ontario M2N 6Y8 or by visiting our website at [www.choufunds.com](http://www.choufunds.com) and SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance, or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements.

Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons including, but not limited to, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's Simplified Prospectus. We caution that the foregoing list of factors is not exhaustive, and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the family of Chou Funds does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.

Chou Associates Management Inc. ("the Manager") manages the overall business of the Fund, including the selection of the securities in the Fund's portfolio and promoting sales of the Fund's units. For the purposes of this document, the terms Chou Associates Management Inc. and "the Manager" are interchangeable. Full contact information for the Manager is located at the end of this report.

## Management Discussion of Fund Performance

### Investment Objective and Strategies

Chou Asia Fund's (the "Fund") objective is to provide long-term growth of capital by investing primarily in equity securities of Asian businesses considered by the Manager to be undervalued. The Fund may also invest in securities other than equities and in businesses located in Asia. The Fund's investments may also include common and preferred shares, convertible debentures, government and corporate bonds and short-term debt.

The Fund's investment strategy follows a strong discipline with regard to the prices paid to acquire portfolio investments. The level of investments in a particular entity's securities is generally commensurate with the current price of the company's securities in relation to the Manager's assessment of such entity's intrinsic value as determined by various factors. This approach is designed to provide an extra margin of safety, which in turn, serves to reduce the Fund's overall portfolio risk.

### Risk

The risks of investing in the Fund are disclosed in the Fund's most recently filed Simplified Prospectus which can be found on the Fund's website at [www.choufunds.com](http://www.choufunds.com) and SEDAR at [www.sedar.com](http://www.sedar.com).

During the period ended June 30, 2016, there were no material changes that affected the Fund's overall level of risk.

### Results of Operations

For the period ended June 30, 2016, the Fund decreased by 0.8% for Series A units and 0.5% for Series F units after fees and expenses, while the MSCI AC Asia Pacific Total Return Index declined 6.9% in Canadian dollars. In U.S. dollars, the Fund was up 6.3% for Series A units and 6.5% for Series F units, while the MSCI AC Asia Pacific Total Return Index declined 0.8%.

The Asian equity markets had a challenging first six months of the year as growth concerns in the region remain. Despite multiple efforts of quantitative easing, the Bank of Japan is nearing its limit of monetary policy. The Japanese economy continues to struggle, especially with the Nikkei 225 Index down 18% during the first half of 2016. China's economy still faces challenges of industrial overcapacity and high debt levels in the corporate sector. Loosening monetary policies with an emphasis on stability and fiscal stimulus may sustain short-term growth, but will further distort the underlying market reality in the long run. Investors continue to contemplate the limits of monetary policy and the impact of negative rates.

Top gainers during the first half of 2016 were the equity holdings of AJIS Company Limited, POSCO Sponsored ADR, and BYD Company Limited.

Most of the declines came from the equity securities of Pyne Gould Corporation Limited and Glacier Media Inc. The Renminbi had depreciated against the Canadian currency during the period, which also negatively impacted the Fund.

In the first half of 2016, the Fund received \$13,950 in income from its securities lending program.

The Fund did not enter into any foreign currency contracts during the period ended June 30, 2016.

The Fund's net redemptions for the period ended June 30, 2016 were approximately \$3,074,411 for Series A units and the Fund's Series F net purchases were approximately \$123,282. The Fund's average month-end cash position for the period was 71.3% of the Fund's net assets.

### **Recent Developments**

There have been no recent market developments of particular note, aside from the normal fluctuations of the markets that are expected to have an undue influence on the portfolio of the Fund when compared to its benchmark.

### **Related Party Transactions**

The Manager manages the overall business of the Fund, including selection of the securities in the Fund's portfolio, and promoting the sale of the Fund's units.

The Manager is also the trustee of the Fund. Investors receive units of a trust when they invest in the Fund. The Manager, as trustee, holds actual title to the property in the Fund, the cash and portfolio securities, on behalf of the Fund's investors.

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. All transactions with the Manager are measured at the exchange amounts.

During the period ended June 30, 2016, there were no transactions with related parties except in the capacities and instances set out above.

(1) This information is derived from the Fund's audited annual and unaudited semi-annual financial statements. For financial reporting purposes, prior to January 1, 2013, under Canadian GAAP, the net assets per security presented in the financial statements differ from the net asset value calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

(3) Distributions were reinvested in additional units of the Fund or paid in cash upon request.

(4) This information is provided as at period end shown and is rounded to the nearest thousand.

(5) Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of weekly average net asset value during the period. The Manager may, at its discretion, waive or absorb certain operating expenses. MER includes the waiver or absorption by the Manager of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by the Manager.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net asset value during the period.

(7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

(8) Information from 2013 and thereafter is in accordance with IFRS. Information for years prior to 2013 is reported under Canadian GAAP.

## Management Fees

The Manager manages the Fund. The Manager is entitled to an investment management fee calculated daily as a percentage of the market value of the net assets equal to 1.5% per annum for Series A units and 1.0% per annum for Series F units, payable monthly. The Manager pays 50 basis points per year trailer fees to dealers out of management fees for Series A units. There is no trailer fee paid out for Series F units.

## Past Performance

### General

The following charts and tables show the Fund's past performance. Rates of return are historical total returns that include changes in unit prices and assume the reinvestment of all distributions. These returns do not take into account any sales charges, redemption fees, other optional expenses or income taxes that the Fund's investors have to pay and which could reduce these returns. The Fund's past performance does not necessarily indicate its future performance.

### Year-by-Year Returns

The following bar charts show the annual performance for each of the Series A and Series F units of the Fund for each of the years shown. Each chart shows, in percentage terms, how an investment on January 1 would have increased or decreased by December 31 for each of the years, and how the performance of the Fund varied from year to year. The return for 2016 is for the six-month period from January 1 to June 30.

## Annual Compound Returns

The following tables<sup>(1)</sup> show the annual compound total return for each of the Series A and Series F units of the Fund. The tables outline the Fund's past performance for the one-, three-, five- and ten-year periods ended on June 30, 2016 for Series A units and since inception and for the one-, three- and five-year periods ended on June 30, 2016 for Series F units. Also shown for the same periods are the respective historical annual compound total returns or changes of the MSCI Asia Pacific Index (the "Index"). The Index is based on the market capitalizations of approximately 900 leading companies publicly traded in the three developed market countries and eight emerging market countries in Asia. The benchmark Index is calculated without the deduction of management fees and fund expenses, whereas the performance of the Fund is calculated after deducting such fees and expenses.
