

**INTERIM MANAGEMENT REPORT
OF FUND PERFORMANCE**

June 30 2017

CHOU ASSOCIATES FUND

CHOU ASSOCIATES MANAGEMENT INC.

This interim management report of fund performance contains financial highlights but does not contain the complete financial statements of the Fund. You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling Toll-free: 1-888-357-5070, by writing to us at 110 Sheppard Ave. East, Suite 301, Box 18, Toronto, Ontario M2N 6Y8 or by visiting our website at www.choufunds.com and SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance, or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements.

Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons including, but not limited to, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's Simplified Prospectus. We caution that the foregoing list of factors is not exhaustive, and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the family of Chou Funds does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.

Chou Associates Management Inc. ("the Manager") manages the overall business of the Fund, including the selection of the securities in the Fund's portfolio and promoting sales of the Fund's units. For the purposes of this document, the terms Chou Associates Management Inc. and "the Manager" are interchangeable. Full contact information for the Manager is located at the end of this report.

CHOU ASSOCIATES FUND

Management Discussion of Fund Performance

Investment Objective and Strategies

Chou Associates Fund's (the "Fund") objective is to provide long-term growth of capital by investing primarily in equity securities of United States ("U.S.") and foreign businesses considered by Chou Associates Management Inc. (the "Manager") to be undervalued. The Fund may also invest in the equity securities of Canadian businesses. The Fund's investments may include common and preferred shares, convertible debentures, warrants, government and corporate bonds and short-term indebtedness.

The Fund's investment strategy follows a strong discipline with regard to the prices paid to acquire portfolio investments. The level of investments in a particular entity's securities is generally commensurate with the current price of the company's securities in relation to the Manager's assessment of such entity's intrinsic value as determined by various factors. This approach is designed to provide an extra margin of safety, which in turn, serves to reduce the Fund's overall portfolio risk.

Risk

The risks of investing in the Fund are disclosed in the Fund's most recently filed Simplified Prospectus which can be found on the Fund's website at www.choufunds.com and SEDAR at www.sedar.com.

During the period ended June 30, 2017, there were no material changes that affected the Fund's overall level of risk.

As at June 30, 2017, Fairfax Financial Holdings held 25.6% of the units of the Fund. If Fairfax redeems its units, a significant portion of the Fund's investments may have to be liquidated in order to effect this transaction. The timing of such liquidation may not be appropriate and all investors may suffer a proportionate loss as a result of such liquidation.

Results of Operations

For the period ended June 30, 2017, the Fund increased by 2.9% for Series A units and 3.2% for Series F units, after fees and expenses, while the S&P 500 Total Return Index increased by 5.6% in Canadian dollars. In U.S. dollars, the Fund increased by 6.5% for Series A units and 6.8% for Series F units, while the S&P 500 Total Return Index returned 9.3%.

U.S. equities performed well in the first half of the year. Reflecting the improving outlook for growth and inflation the Federal Reserve (Fed) raised base rates by 0.25% each at the March and June meetings of its Federal Open Market Committee, and set out detailed plans to reduce its balance sheet. The market remained optimistic over Donald Trump's plans to cut taxes, boost infrastructure spend and reduce the regulatory burden on business. However, political uncertainty remained an important feature in the market as President Trump dismissed the FBI director James Comey, as well as the failure at the period end to pass revisions to healthcare legislation. This raised doubts over the ability of the administration to push its fiscally expansive policies and also weighed on the dollar. The dollar was further negatively impacted amid rising expectations that central banks in other major developed economies are also preparing to tighten monetary policy. Information technology was the top-performing sector, followed by consumer discretionary and healthcare. The energy sector lagged the market, in line with the decline in crude oil prices.

CHOU ASSOCIATES FUND

The biggest positive contributors to the Fund's performance in the first half of 2017 included JPMorgan Chase warrants expiring on October 2018, and the equity securities of Nokia, Valeant Pharmaceuticals, Sanofi, and Citigroup Inc.

Equities of Sears Hometown and Outlet Stores, Resolute Forest Products, and MBIA Inc. were the main negative contributors to the Fund's performance during the same period.

The Canadian currency strengthened against the US dollar, which also negatively affected the Fund.

During the period, the Fund decreased its holdings of Nokia, JPMorgan Chase warrants, and Citigroup Inc.

New additions during the period include equity stakes in Teva Pharmaceutical and Endo International. The Fund also increased its position in Valeant Pharmaceuticals.

In the first half of 2017, the Fund received \$2,352,708 in income from its securities lending program.

The Fund had no covered call options in its portfolio as at June 30, 2017.

The Fund did not enter into any foreign currency contracts during the period ended June 30, 2017.

The Fund's net redemptions for the period ended June 30, 2017 were approximately \$32,905,219 for Series A units and approximately \$2,063,645 for Series F units. The Fund's average month-end cash position for the period was 5.3% of the Fund's net assets.

Recent Developments

There have been no recent market developments of particular note, aside from the normal fluctuations of the markets that are expected to have an undue influence on the portfolio of the Fund when compared to its benchmark.

Related Party Transactions

The Manager manages the overall business of the Fund, including selection of the securities in the Fund's portfolio and promoting the sale of the Fund's units.

The Manager is also the trustee of the Fund. Investors receive units of a trust when they invest in the Fund. The Manager, as trustee, holds actual title to the property in the Fund, the cash and portfolio securities, on behalf of the Fund's investors.

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. All transactions with the Manager are measured at the exchange amounts.

During the period ended June 30, 2017, there were no transactions with related parties except in the capacities and instances set out above.

CHOU ASSOCIATES FUND

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended June 30, 2017, and for each of the past five years ended December 31, as applicable.

The Fund's Net Assets per Unit¹ - Class A Units

(1) This information is derived from the Fund's audited annual unaudited semi-annual financial statements. For financial reporting purposes, prior to January 1, 2013, under Canadian GAAP, the net assets per security presented in the financial statements differ from the net asset value calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

(3) Distributions were reinvested in additional units of the Fund or paid in cash upon request.

(4) This information is provided as at period end shown and is rounded to the nearest thousand.

(5) Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of weekly average net asset value during the period. The Manager may, at its discretion, waive or absorb certain operating expenses. MER includes the waiver or absorption by the Manager of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by the Manager.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net asset value during the period.

(7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

(8) Information from 2013 and thereafter is in accordance with IFRS. Information for years prior to 2013 is reported under Canadian GAAP.

CHOU ASSOCIATES FUND

Management Fees

The Manager manages the Fund. The Manager is entitled to an investment management fee calculated daily as a percentage of the market value of the net assets equal to 1.5% per annum for Series A units and 1.0% per annum for Series F units, payable monthly. The Manager pays 50 basis points per year trailer fees to dealers out of management fees for Series A units. There is no trailer fee paid out for Series F units.

Past Performance

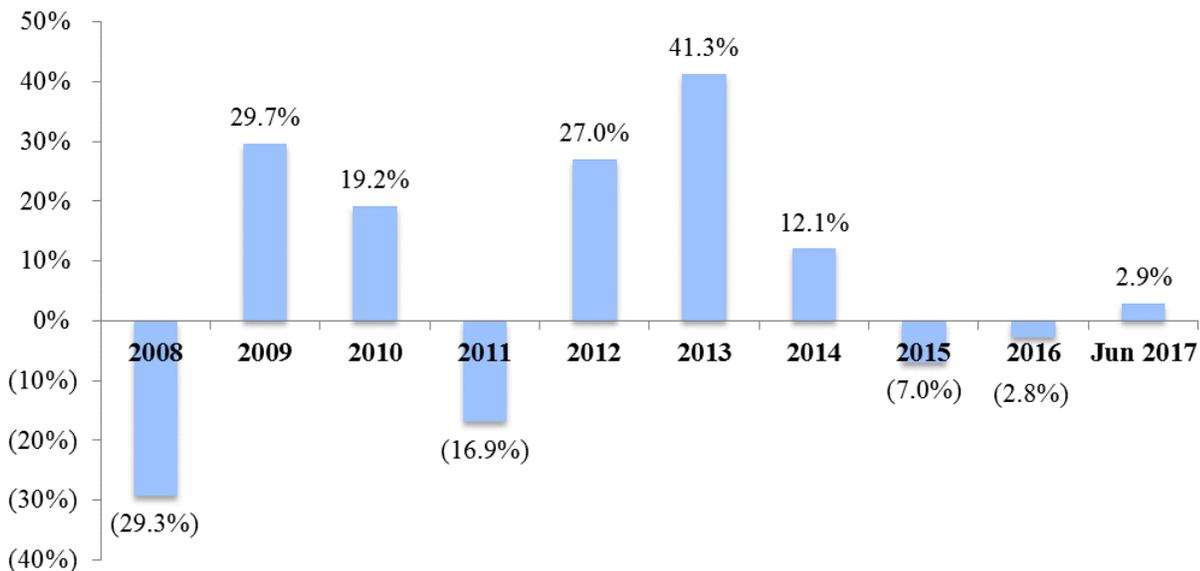

General

The following charts and tables show the Fund's past performance. Rates of return are historical total returns that include changes in unit prices and assume the reinvestment of all distributions. These returns do not take into account any sales charges, redemption fees, other optional expenses or income taxes that the Fund's investors have to pay and which could reduce these returns. The Fund's past performance does not necessarily indicate its future performance.

Year-by-Year Returns

The following bar charts show the annual performance for each of the Series A and Series F units of the Fund for each of the years shown. Each chart shows, in percentage terms, how an investment on January 1 would have increased or decreased by December 31 for each of the years, and how the performance of the Fund varied from year to year. The return for 2017 is for the six-month period from January 1 to June 30.

Series A

CHOU ASSOCIATES FUND

Series F

Annual Compound Returns

The following tables⁽¹⁾ show the annual compound total return for each of the Series A and Series F units of the Fund. The tables outline the Fund's past performance for the one-, three-, five-, ten-, fifteen- and twenty-year periods ended on June 30, 2017 for Series A units and since inception and for the one-, three-, five- and ten-year periods ended on June 30, 2017 for Series F units. Also shown for the same periods are the respective historical annual compound total returns or changes of the S&P 500 (the "Index"). The Index is based on the market capitalizations of 500 leading companies publicly traded in the U.S. stock market representing all major industries, as determined by Standard & Poor's. The Index is one of the most commonly followed equity indices and has been widely regarded as the best single gauge of the large cap U.S. equities market since the Index was first published in 1957. The benchmark Index is calculated without the deduction of management fees and fund expenses, whereas the performance of the Fund is calculated after deducting such fees and expenses.
