Investment Mix (August 31, 2020)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Chou Associates Management Inc. has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in Chou RRSP Fund" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This information is not available for the Series D units as the Fund has been distributing Series D units under a simplified prospectus for less than one calendar year.

Year-by-year returns

This information is not available for the Series D units as the Fund has been distributing Series D units under a simplified prospectus for less than one calendar year.

Best and worst 3-month returns

This information is not available for the Series D units as the Fund has been distributing Series D units under a simplified prospectus for less than one calendar year.

Average return

This information is not available for the Series D units as the Fund has been distributing Series D units under a simplified prospectus for less than 12 consecutive months.

Who is this fund for?

Investors who:

- Are seeking capital gains over the long term.
- Want to diversify asset classes within a larger portfolio rather than as a core holding.

! Don't buy this fund if you need a steady source of income from your investment.

A word about tax

In general, you'll have to pay income tax on any money you make on the fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold this fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series D units of the fund. The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The Fund does not impose a sales charge. Your representative or your representative's firm may charge a sales charge, commission or service fee. These Series D charges are negotiated between you and your representative or your representative's firm.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns. The fund's expenses are made up of the management fee, operating expenses, and trading costs. The series' annual management fee is 1.25% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you.

Chou Associates Management Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The maximum rate is 0.25% of the value of your investment each year. This equals \$2.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of units you sell or transfer out within 90 days of buying them. This fee goes to the fund.
Switch fee	A representative may charge from 0% to 2% for switches between funds.

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- Withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or fund facts document, or
- Cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, fund facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
