INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

June 30, 2020

This interim management report of fund performance contains financial highlights but does not contain the complete financial statements of the Fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling Toll-free: 1-888-357-5070, by writing to us at 110 Sheppard Ave. East, Suite 301, Box 18, Toronto, Ontario M2N 6Y8 or by visiting our website at www.choufunds.com and SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance, or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements.

Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons including, but not limited to, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's Simplified Prospectus. We caution that the foregoing list of factors is not exhaustive, and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the family of Chou Funds does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.

Chou Associates Management Inc. ("the Manager") manages the overall business of the Fund, including the selection of the securities in the Fund's portfolio and promoting sales of the Fund's units. For the purposes of this document, the terms Chou Associates Management Inc. and "the Manager" are interchangeable. Full contact information for the Manager is located at the end of this report.

Management Discussion of Fund Performance

Investment Objective and Strategies

The Chou RRSP Fund's ("the Fund") objective is to provide long-term growth of capital by investing in equity and debt instruments of primarily Canadian businesses considered by Chou Associates Management Inc. (the "Manager") to be undervalued. The Fund may invest in equity and debt instruments of U.S. and foreign businesses. The Fund's investments may include common and preferred shares, convertible debentures, options, warrants, government and corporate bonds and short-term indebtedness.

The Fund's investment strategy follows a strong discipline with regard to the prices paid to acquire portfolio investments. The level of investments in a particular entity's securities is generally commensurate with the current price of the company's securities in relation to the Manager's assessment of such entity's intrinsic value as determined by various factors. This approach is designed to provide an extra margin of safety, which in turn, serves to reduce the Fund's overall portfolio risk.

Risk

The risks of investing in the Fund are disclosed in the Fund's most recently filed Simplified Prospectus which can be found on the Fund's website at www.choufunds.com and SEDAR at www.sedar.com.

During the first half of 2020, there were no material changes that affected the Fund's overall level of risk.

Market Review

The first six months of 2020 provided investors with a roller coaster ride. The Canadian equity market hit new highs in mid-February, followed by substantial declines in late February/early March as the coronavirus pandemic emerged. In Canada, the government introduced expansionary fiscal and monetary measure to offset the impacts of COVID. The Canadian Emergency Response Benefit program gave \$2,000 a month to Canadians who were directly impacted by COVID-19. Additionally, the Bank of Canada cut interest rates by 150 basis points, taking the overnight rate to 0.25%. The Canadian fiscal response thus far exceeds \$260 billion (~12% of GDP).

In general, the Canadian equity markets underperformed that of other geographies. This was because the Canadian equity indices are heavily exposed to the financial and energy sectors (combining for over 40% of the S&P/TSX Composite index). Plummeting oil prices, the deteriorating general economy, and a lower interest-rate environment are all factors that weighed on the two sectors.

Results of Operations

For the period ended June 30, 2020, the Fund decreased 26.0% for Series A units and 25.8% for Series F units, after fees and expenses, while the S&P/TSX Total Return Index decreased 7.5% in Canadian dollars. In U.S. dollars, the Fund decreased by 29.3% for Series A units and 29.1% for Series F units, while the S&P/TSX Total Return Index decreased 11.8%.

The largest decliners in the period were the equity holdings of Resolute Forest Products, Bausch Health, EXCO Resources, Bank of America, and Linamar Corporation. The increase in prices of Torstar shares and Overstock preferred shares helped to offset some of the losses.

CHOU RRSP FUND

Portfolio Update

During the period, the Fund reduced its holdings in BlackBerry Limited, Bank of America, EXCO Resources, and Bausch Health Companies, as well as sold its holdings in Fairfax Financial Holdings. The Fund also received Overstock Series A-1 preferred shares as digital dividends.

The Fund did not make any new investments, or enter into any foreign currency contracts during the period ended June 30, 2020. The Fund also had no covered call options in its portfolio as at June 30, 2020.

In the first half of 2020, the Fund received \$4,034 in income from its securities lending program.

The Fund's net redemptions for the first half of 2020 were approximately \$4,245,929 for Series A units and approximately \$427,414 for Series F units. The Fund's average month-end cash position for the period was 1.7% of the Fund's net assets.

Recent Developments

Since March 11, 2020, the outbreak of COVID-19 and related global responses have caused material disruptions to businesses around the world, leading to adverse impacts on domestic and international equity markets and fixed income yields.

While governments and central banks have reacted with monetary and fiscal interventions designed to stabilize economic conditions, the duration and extent of the impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses, remains unclear at this time.

Based on this increased uncertainty, we expect the performance of the Fund's portfolio to be affected to some degree in the near term.

Related Party Transactions

The Manager manages the overall business of the Fund, including selection of the securities in the Fund's portfolio, and promoting the sale of the Fund's units.

The Manager is also the trustee of the Fund. Investors receive units of a trust when they invest in the Fund. The Manager, as trustee, holds actual title to the property in the Fund, the cash and portfolio securities, on behalf of the Fund's investors.

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. As of June 30, 2020, the Manager, its officers and directors held 2.5% of the Series A units of the Fund. All transactions with the Manager are carried out at the Fund's net asset value as at the transaction date.

During the period ended June 30, 2020, an affiliate of the Manager purchased 242,914 units of the EXCO Resources shares from the Fund in June 2020 to reduce the Fund's exposure to illiquid securities. The security was sold at the fair market value on the day of the trade. To avoid any potential conflict of interest concerns, the transaction was approved by the Independent Review Committee and received exemption relief from the Ontario Securities Commission.

(1) This information is derived from the Fund's audited annual and unaudited semi-annual financial statements.

(2) Net assets and distributions are based on the actual number of redeemable units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of redeemable units outstanding over the financial period.

(3) Distributions were reinvested in additional units of the Fund or paid in cash upon request.

(4) This information is provided as at period end shown and is rounded to the nearest thousand.

(5) Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of weekly average net asset value during the period. The Manager may, at its discretion, waive or absorb certain operating expenses. MER includes the waiver or absorption by the Manager of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by the Manager.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net asset value during the period.

(7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the financial period. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

CHOU RRSP FUND

Management Fees

The Manager manages the Fund. The Manager is entitled to an investment management fee calculated daily as a percentage of the market value of the net assets equal to 1.5% per annum for Series A units and 1.0% per annum for Series F units, payable monthly. The Manager pays 50 basis points per year trailer fees to dealers out of management fees for Series A units. There is no trailer fee paid out for Series F units.

Past Performance

General

The following charts and tables show the Fund's past performance. Rates of return are historical total returns that include changes in unit prices and assume the reinvestment of all distributions. These returns do not take into account any sales charges, redemption fees, other optional expenses or income taxes that the Fund's investors have to pay and which could reduce these returns. The Fund's past performance does not necessarily indicate its future performance.

Year-by-Year Returns

The following bar charts show the annual performance for each of the Series A and Series F units of the Fund for each of the years shown. Each chart shows, in percentage terms, how an investment on January 1 would have increased or decreased by December 31 for each of the years, and how the performance of the Fund varied from year to year. The return for 2020 is for the six-month period from January 1 to June 30.

Annual Compound Returns

The following tables⁽¹⁾ show the annual compound total return for each of the Series A and Series F units of the Fund. The tables outline the Fund's past performance for the one-, three-, five-, ten-, and fifteen-year periods ended on June 30, 2020 for Series A units and since inception and for the one-, three-, five- and ten-year periods ended on June 30, 2020 for Series F units. Also shown for the same periods are the respective historical annual compound total returns of the S&P/TSX (the "Index"). The Index is the headline index for the Canadian equity market. The Toronto Stock Exchange serves as the distributor of this index. The benchmark Index is calculated without the deduction of management fees and fund expenses, whereas the performance of the Fund is calculated after deducting such fees and expenses.
