

**INTERIM MANAGEMENT REPORT
OF FUND PERFORMANCE**

June 30 2017

CHOU RRSP FUND

CHOU ASSOCIATES MANAGEMENT INC.

This interim management report of fund performance contains financial highlights but does not contain the complete financial statements of the Fund. You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling Toll-free: 1-888-357-5070, by writing to us at 110 Sheppard Ave. East, Suite 301, Box 18, Toronto, Ontario M2N 6Y8 or by visiting our website at www.choufunds.com and SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance, or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements.

Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons including, but not limited to, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's Simplified Prospectus. We caution that the foregoing list of factors is not exhaustive, and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the family of Chou Funds does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.

Chou Associates Management Inc. ("the Manager") manages the overall business of the Fund, including the selection of the securities in the Fund's portfolio and promoting sales of the Fund's units. For the purposes of this document, the terms Chou Associates Management Inc. and "the Manager" are interchangeable. Full contact information for the Manager is located at the end of this report.

CHOU RRSP FUND

Management Discussion of Fund Performance

Investment Objective and Strategies

The Chou RRSP Fund's ("the Fund") objective is to provide long-term growth of capital by investing in equity and debt instruments of primarily Canadian businesses considered by Chou Associates Management Inc. (the "Manager") to be undervalued. The Fund may invest in equity and debt instruments of U.S. and foreign businesses. The Fund's investments may include common and preferred shares, convertible debentures, warrants, government and corporate bonds and short-term indebtedness.

The Fund's investment strategy follows a strong discipline with regard to the prices paid to acquire portfolio investments. The level of investments in a particular entity's securities is generally commensurate with the current price of the company's securities in relation to the Manager's assessment of such entity's intrinsic value as determined by various factors. This approach is designed to provide an extra margin of safety, which in turn, serves to reduce the Fund's overall portfolio risk.

Risk

The risks of investing in the Fund are disclosed in the Fund's most recently filed Simplified Prospectus which can be found on the Fund's website at www.choufunds.com and SEDAR at www.sedar.com.

During the period ended June 30, 2017, there were no material changes that affected the Fund's overall level of risk.

Results of Operations

For the period ended June 30, 2017, the Fund increased 3.8% for Series A units and 4.1% for Series F units, after fees and expenses, while the S&P/TSX Total Return Index returned 0.7% in Canadian dollars. In U.S. dollars, the Fund increased by 7.4% for Series A units and 7.7% for Series F units, while the S&P/TSX Total Return Index returned 4.3%.

The Canadian equity market flattened in performance in the first half of 2017 as oil continues to remain a concern for Canada. While we have seen a slight bounce-back in oil prices recently, prices remain much lower than the start of the year. The worry continues to be that supply is not dropping fast enough with heightened concerns over increasing rig counts in the U.S., which continue to strain the supply/demand balance. With continued concerns about Canada's real estate problems and the attention Home Capital brought to the alternative mortgage market, the financial sector has also struggled during the period. The decision by Bank of Canada Governor Stephen Poloz to raise the bank's key lending rate by 0.25% to 0.75% may put additional pressure on the country's housing market and consumers, who are saddled with record levels of debt. Another issue adding to economic uncertainty in Canada is the potential re-negotiation of NAFTA.

The equity holdings of Blackberry, Canfor Pulp Products, Interfor Corp., and Valeant Pharmaceuticals, as well as the Bank of America warrants were the major positive contributors to the Fund's performance in the first half of 2017.

The largest equity decliners in the same period were Reitmans, Dundee Corp., Torstar Corp., TVA Group, and Resolute Forest Products.

In the first half of the year, the Fund reduced holdings in Canfor Pulp Products, Interfor Corp. and Bank of America warrants. Equity stakes in Valeant Pharmaceuticals were increased by about 30% in the six months.

CHOU RRSP FUND

In the first half of 2017, the Fund received \$27,627 in income from its securities lending program.

The Fund had no covered call options in its portfolio as at June 30, 2017.

The Fund did not enter into any foreign currency contracts during the period ended June 30, 2017.

The Fund's net redemptions for the period ended June 30, 2017 were approximately \$9,537,803 for Series A units and the Series F units had a net purchases of \$382,362. The Fund's average month-end cash position for the period was 2.6% of the Fund's net assets.

Recent Developments

There have been no recent market developments of particular note, aside from the normal fluctuations of the markets that are expected to have an undue influence on the portfolio of the Fund when compared to its benchmark.

Related Party Transactions

The Manager manages the overall business of the Fund, including selection of the securities in the Fund's portfolio, and promoting the sale of the Fund's units.

The Manager is also the trustee of the Fund. Investors receive units of a trust when they invest in the Fund. The Manager, as trustee, holds actual title to the property in the Fund, the cash and portfolio securities, on behalf of the Fund's investors.

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. All transactions with the Manager are measured at the exchange amounts.

In March 2017, the Manager agreed to unconditionally guarantee the principal loan amount of \$6,429,765 (the "Guaranteed Amount") by Fuel Industries to the Fund. The Manager shall pay to the Fund an amount equal to the Guaranteed Amount less the amount actually received by the Fund in respect of the Guaranteed Amount from Fuel Industries on or before 5:00 p.m. on December 31, 2018 (the "Shortfall Amount"). The Guaranteed Amount is secured by all past, present and future entitlements of Fuel Industries to receive Ontario Interactive Digital Media Tax Credits (OIDMTC).

During the six-months ended June 30, 2017, the Fund received the 2013 OIDMTC, of which \$860,460 was applied against the principal loan amount. The expected shortfall as at June 30, 2017 was \$2,935,439, as represented by the guarantee asset presented in the financial statements.

In August 2017, with Fuel Industries emerging from receivership, the Manager purchased \$2,607,488 of the Fuel Industries' term loan, thereby reducing the guarantee asset by the same amount. The purchase is to cover for a portion of the potential shortfall between the outstanding loan amount and the estimated valuation of the remaining OIDMTC.

CHOU RRSP FUND

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended June 30, 2017, and for each of the past five years ended December 31, as applicable.

The Fund's Net Assets per Unit¹ - Class A Units

	<u>Jun 2017</u>	<u>2016</u>	<u>2015</u>	<u>2014</u>	<u>2013</u>	<u>2012</u>

(1) This information is derived from the Fund's audited annual and unaudited semi-annual financial statements. For financial reporting purposes, prior to January 1, 2013, under Canadian GAAP, the net assets per security presented in the financial statements differ from the net asset value calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

(3) Distributions were reinvested in additional units of the Fund or paid in cash upon request.

(4) This information is provided as at period end shown and is rounded to the nearest thousand.

(5) Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of weekly average net asset value during the period. The Manager may, at its discretion, waive or absorb certain operating expenses. MER includes the waiver or absorption by the Manager of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by the Manager.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net asset value during the period.

(7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

(8) Information from 2013 and thereafter is in accordance with IFRS. Information for years prior to 2013 is reported under Canadian GAAP.

CHOU RRSP FUND

Management Fees

The Manager manages the Fund. The Manager is entitled to an investment management fee calculated daily as a percentage of the market value of the net assets equal to 1.5% per annum for Series A units and 1.0% per annum for Series F units, payable monthly. The Manager pays 50 basis points per year trailer fees to dealers out of management fees for Series A units. There is no trailer fee paid out for Series F units.

Past Performance

General

The following charts and tables show the Fund's past performance. Rates of return are historical total returns that include changes in unit prices and assume the reinvestment of all distributions. These returns do not take into account any sales charges, redemption fees, other optional expenses or income taxes that the Fund's investors have to pay and which could reduce these returns. The Fund's past performance does not necessarily indicate its future performance.

Year-by-Year Returns

The following bar charts show the annual performance for each of the Series A and Series F units of the Fund for each of the years shown. Each chart shows, in percentage terms, how an investment on January 1 would have increased or decreased by December 31 for each of the years, and how the performance of the Fund varied from year to year. The return for 2017 is for the six-month period from January 1 to June 30.

Series A

CHOU RRSP FUND

Series F

Annual Compound Returns

The following tables⁽¹⁾ show the annual compound total return for each of the Series A and Series F units of the Fund. The tables outline the Fund's past performance for the one-, three-, five-, ten-, fifteen- and twenty-year periods ended on June 30, 2017 for Series A units and since inception and for the one-, three-, five- and ten-year periods ended on June 30, 2017 for Series F units. Also shown for the same periods are the respective historical annual compound total returns or changes of the S&P/TSX (the "Index"). The Index is the headline index for the Canadian equity market. The Toronto Stock Exchange serves as the distributor of this index. The benchmark Index is calculated without the deduction of management fees and fund expenses, whereas the performance of the Fund is calculated after deducting such fees and expenses.

Series A

June 30, 2017	Past Year	Past 3 Years	Past 5 Years	Past 10 Years	Past 15 Years
Chou RRSP Fund	20.93%	-2.51%	8.22%	1.87%	5.20%
