INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

June 30, 2021

This interim management report of fund performance contains financial highlights but does not contain the complete financial statements of the Fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling Toll-free: 1-888-357-5070, by writing to us at 110 Sheppard Ave. East, Suite 301, Box 18, Toronto, Ontario M2N 6Y8 or by visiting our website at www.choufunds.com and SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance, or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements.

Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons including, but not limited to, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's Simplified Prospectus. We caution that the foregoing list of factors is not exhaustive, and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the family of Chou Funds does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.

Chou Associates Management Inc. ("the Manager") manages the overall business of the Fund, including the selection of the securities in the Fund's portfolio and promoting sales of the Fund's units. For the purposes of this document, the terms Chou Associates Management Inc. and "the Manager" are interchangeable. Full contact information for the Manager is located at the end of this report.

Management Discussion of Fund Performance

Investment Objective and Strategies

The Chou RRSP Fund's ("the Fund") objective is to provide long-term growth of capital by investing in equity and debt instruments of primarily Canadian businesses considered by Chou Associates Management Inc. (the "Manager") to be undervalued. The Fund may invest in equity and debt instruments of U.S. and foreign businesses. The Fund's investments may include common and preferred shares, convertible debentures, options, warrants, government and corporate bonds and short-term indebtedness.

The Fund's investment strategy follows a strong discipline with regard to the prices paid to acquire portfolio investments. The level of investment in a particular entity's securities is generally commensurate with the current price of the company's securities in relation to the Manager's assessment of such entity's intrinsic value as determined by various factors. This approach is designed to provide an extra margin of safety, which in turn, serves to reduce the Fund's overall portfolio risk.

Risk

The risks of investing in the Fund are disclosed in the Fund's most recently filed Simplified Prospectus which can be found on the Fund's website at www.choufunds.com and SEDAR at www.sedar.com.

During the first half of 2021, there were no material changes that affected the Fund's overall level of risk.

Market Review

For the first half of 2021, Canadian equities performed positively and outperformed other equity markets in the developed world. The S&P/TSX Total Return Index increased 17.3% over the period, its best first half since the 2008 financial crisis. The energy, healthcare, information technology, financial, real estate, and consumer discretionary sectors generated robust gains while materials, utilities and industrials performed modestly.

In Canada, the third wave of the virus slowed growth in the second quarter. However, falling COVID-19 cases, progress on vaccinations and easing restrictions continued to support an economic recovery. The Canadian economy was also supported by both fiscal and monetary stimulus. In addition, a strengthening global economy, led to an increase in demand for Canada's commodity exports.

The Bank of Canada held four scheduled meetings during the first six months of 2021; it maintained its target for the overnight rate at 0.25 percent and expects it will stay at that level until "the 2 percent inflation target is sustainably achieved".

Results of Operations

For the period ended June 30, 2021, the Fund increased 43.9% for Series A units and 44.3% for Series F units, after fees and expenses, while the S&P/TSX Total Return Index increased 17.3% in Canadian dollars. In U.S. dollars, the Fund increased by 47.8% for Series A units and 48.1% for Series F units, while the S&P/TSX Total Return Index increased 20.7%.

The major advancers were the equity holdings of WOW Unlimited Media Inc., Reitmans (Canada) Limited, Resolute Forest Products Inc., BlackBerry Limited, Overstock.com Inc., TVA Group Inc., and Bausch Health Company Inc.

The only security that declined in price in the period was the equity holding of Canfor Pulp Products Inc.

CHOU RRSP FUND

Portfolio Update

During the period, the Fund reduced its holdings in TVA Group Inc., Interfor Corporation, Overstock.com Inc., Resolute Forest Products Inc., BlackBerry Limited, and Bausch Health Company Inc. The Fund also sold its holdings in Bank of America.

As at June 30, 2021, the Fund had eight covered call options on Bausch Health Company Inc., BlackBerry Limited and Resolute Forest Products Inc.

In the first half of 2021, the Fund received \$736 in income from its securities lending program.

The Fund's net redemptions for the first half of 2021 were approximately \$7,608,889 for Series A units and approximately \$468,997 for Series F units. The Fund's average month-end cash position for the period was 0.9% of the Fund's net assets.

Recent Developments

The ongoing COVID-19 pandemic has continued to disrupt businesses around the world. Uneven vaccination rollouts and the emergence of new variants have added volatility to both domestic and international markets.

While governments and central banks have maintained their support of the economy through monetary and fiscal policies, the shape of the pandemic recovery remains unclear at this time.

Based on this increased uncertainty, we expect the performance of the Fund's portfolio to be affected to some degree in the near term.

Related Party Transactions

The Manager manages the overall business of the Fund, including selection of the securities in the Fund's portfolio, and promoting the sale of the Fund's units.

The Manager is also the trustee of the Fund. Investors receive units of a trust when they invest in the Fund. The Manager, as trustee, holds the actual title to the property in the Fund, the cash and portfolio securities, on behalf of the Fund's investors.

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. As of June 30, 2021, the Manager, its officers and directors hold 3.2% of the Series A units of the Fund. All transactions with the Manager are carried out at the Fund's net asset value as at the transaction date.

During the period ended June 30, 2021, there were no transactions with related parties except in the capacities and instances set out above.

(1) This information is derived from the Fund's audited annual and unaudited semi-annual financial statements.

(2) Net assets and distributions are based on the actual number of redeemable units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of redeemable units outstanding over the financial period.

(3) Distributions were reinvested in additional units of the Fund or paid in cash upon request.

(4) This information is provided as at the period end shown and is rounded to the nearest thousand.

(5) Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of weekly average net asset value during the period. The Manager may, at its discretion, waive or absorb certain operating expenses. MER includes the waiver or absorption by the Manager of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by the Manager.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net asset value during the period.

(7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the financial period. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

CHOU RRSP FUND

Management Fees

The Manager manages the Fund. The Manager is entitled to an investment management fee calculated daily as a percentage of the market value of the net assets equal to 1.5% per annum for Series A units and 1.0% per annum for Series F units, payable monthly. The Manager pays 50 basis points per year trailer fees to dealers out of management fees for Series A units. There is no trailer fee paid out for Series F units.

Past Performance

General

The following charts and tables show the Fund's past performance. Rates of return are historical total returns that include changes in unit prices and assume the reinvestment of all distributions. These returns do not take into account any sales charges, redemption fees, other optional expenses or income taxes that the Fund's investors have to pay and which could reduce these returns. The Fund's past performance does not necessarily indicate its future performance.

Year-by-Year Returns

The following bar charts show the annual performance for each of the Series A and Series F units of the Fund for each of the years shown. Each chart shows, in percentage terms, how an investment on January 1 would have increased or decreased by December 31 for each of the years, and how the performance of the Fund varied from year to year. The return for 2021 is for the six-month period from January 1 to June 30.

Annual Compound Returns

The following tables⁽¹⁾ show the annual compound total return for each of the Series A and Series F units of the Fund. The tables outline the Fund's past performance for the one-, three-, five-, ten-, and fifteen-year periods ended on June 30, 2021. Also shown for the same periods are the respective historical annual compound total returns of the S&P/TSX (the "Index"). The Index is the headline index for the Canadian equity market. The Toronto Stock Exchange serves as the distributor of this index. The benchmark Index is calculated without the deduction of management fees and fund expenses, whereas the performance of the Fund is calculated after deducting such fees and expenses.
