## Management Discussion of Fund Performance

### Investment Objective and Strategies

The Chou RRSP Fund's ("the Fund") objective is to provide long-term growth of capital by investing in equity and debt instruments of primarily Canadian businesses considered by Chou Associates Management Inc. (the "Manager") to be undervalued. The Fund may also invest in equity and debt instruments of U.S. and foreign businesses. Investments may include common and preferred shares, convertible debentures, government and corporate bonds and short-term indebtedness. The Fund may also use derivatives such as, but not limited to, futures, options, swaps and forward contracts to gain exposure to securities and asset classes consistent with the objectives of the Fund, and to hedge portfolio exposure against losses from foreign currency and domestic currency exposure and changes in securities prices.

The Fund's investment strategy follows a strong discipline with regard to the prices paid to acquire portfolio investments. The level of investment in a particular entity's securities is generally commensurate with the current price of the company's securities in relation to the Manager's assessment of such entity's intrinsic value as determined by various factors. This approach is designed to provide an extra margin of safety, which in turn, serves to reduce the Fund's overall portfolio risk.

### Risk

The risks of investing in the Fund are disclosed in the Fund's most recently filed Simplified Prospectus which can be found on the Fund's website at [www.choufunds.com](http://www.choufunds.com) and SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

During the first half of 2023, there were no material changes that affected the Fund's overall level of risk.

### Market Review

For the first six months of 2023, the market, as measured by the S&P/TSX, gained 8.2% in U.S. dollars. Central banks across the globe, including the Bank of Canada, continued raising interest rates given solid economic growth. In general, corporate profits have been better than feared helping fuel market gains. Stock market gains in Canada were held back due to weaker oil and commodity prices. Concerns over economic growth in China, the lasting impact of rate hikes and continued geopolitical pressures remain.

### Results of Operations

For the period ended June 30, 2023, the Fund increased by 6.2% for Series A units and 6.5% for Series F units, after fees and expenses, while the S&P/TSX Total Return Index increased by 5.8% in Canadian dollars. In U.S. dollars, the Fund increased by 8.5% for Series A units and 8.8% for Series F units, while the S&P/TSX Total Return Index increased by 8.2%.

The largest advancers were the equity holdings of BlackBerry Limited, Reitmans (Canada) Limited, Parex Resources Inc, Bausch Health Company Inc., Interfor Corporation, Linamar Corporation, Onex Corporation, and CI Financial Corporation, and the warrant holding of Hertz Global Holdings Inc.

The only decliner in the period was the equity holdings of Canfor Pulp Products Inc.

### **Portfolio Update**

During the period, Domtar, a subsidiary of The Paper Excellence Group, finalized the purchase of Resolute Forest Products in March 2023. The transaction was completed by way of a merger between RFP and a newly created subsidiary of Domtar, providing for the conversion of each share of RFP common stock into the right to receive US\$20.50 per share, together with CVR (Contingent Value Rights) entitling the holder to a share of future softwood lumber duty deposit refunds. Each share, on a fully diluted basis at closing, is entitled to receive one CVR. The Fund received the cash portion of the deal.

The Fund increased its holding in Home Capital Group Inc.

The Fund initiated investments in Class A shares of Reitmans (Canada) Limited.

As at June 30, 2023, the Fund had no covered call options in its portfolio.

In the first half of 2023, the Fund received \$4,572 in income from its securities lending program.

The Fund's net redemptions for the first half of 2023 were approximately \$857,380 for Series A units and \$66,141 for Series F units. Out of the net redemptions for Series F units, \$70,969 was switched from Series A units following the OEO trailer ban. The Fund's average month-end cash position for the period was 35.5% of the Fund's net assets.

### **Recent Developments**

The ongoing Russian invasion of Ukraine has continued to disrupt businesses around the world, adding volatility to both domestic and international markets. While governments and central banks have maintained their support of the economy through monetary and fiscal policies, the health of the economy remains unclear at this time. Based on this increased uncertainty, we expect the performance of the Fund's portfolio to be affected to some degree in the near term.

### **Related Party Transactions**

The Manager manages the overall business of the Fund, including selection of the securities in the Fund's portfolio, and promoting the sale of the Fund's units.

The Manager is also the trustee of the Fund. Investors receive units of a trust when they invest in the Fund. The Manager, as trustee, holds the actual title to the property in the Fund, the cash and portfolio securities, on behalf of the Fund's investors.

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. As of June 30, 2023, the Manager, its officers and directors hold 4.4% the Fund. All transactions with the Manager are carried out at the Fund's net asset value as at the transaction date.

During the period ended June 30, 2023, there were no transactions with related parties except in the capacities and instances set out above.

<sup>(1)</sup> This information is derived from the Fund's audited annual and unaudited semi-annual financial statements.

<sup>(2)</sup> Net assets and distributions are based on the actual number of redeemable units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of redeemable units outstanding over the financial period.

<sup>(3)</sup> Distributions were reinvested in additional units of the Fund or paid in cash upon request.

<sup>(4)</sup> This information is provided as at the period end shown and is rounded to the nearest thousand.

<sup>(5)</sup> Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of weekly average net asset value during the period. The Manager may, at its discretion, waive or absorb certain operating expenses. MER includes the waiver or absorption by the Manager of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by the Manager.

<sup>(6)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net asset value during the period.

<sup>(7)</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the financial period. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

The Manager manages the Fund. The Manager is entitled to an investment management fee calculated daily as a percentage of the market value of the net assets equal to 1.5% per annum for Series A units and 1.0% per annum for Series F units, payable monthly. The Manager pays 50 basis points per year trailer fees to dealers out of management fees for Series A units. There is no trailer fee paid out for Series F units.

## Past Performance

### General

The following charts and tables show the Fund's past performance. Rates of return are historical total returns that include changes in unit prices and assume the reinvestment of all distributions. These returns do not take into account any sales charges, redemption fees, other optional expenses or income taxes that the Fund's investors have to pay and which could reduce these returns. The Fund's past performance does not necessarily indicate its future performance.

### Year-by-Year Returns

The following bar charts show the annual performance for each of the Series A and Series F units of the Fund for each of the years shown. Each chart shows, in percentage terms, how an investment on January 1 would have increased or decreased by December 31 for each of the years, and how the performance of the Fund varied from year to year. The return for 2023 is for the six-month period from January 1 to June 30.
