## **INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE**

### **June 30, 2024**

This interim management report of fund performance contains financial highlights but does not contain the complete financial statements of the Fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling Toll-free: 1-888-357-5070, by writing to us at 110 Sheppard Ave. East, Suite 301, Box 18, Toronto, Ontario M2N 6Y8 or by visiting our website at [www.choufunds.com](http://www.choufunds.com) and SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance, or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements.

Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons including, but not limited to, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund's Simplified Prospectus. We caution that the foregoing list of factors is not exhaustive, and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the family of Chou Funds does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.

Chou Associates Management Inc. ("the Manager") manages the overall business of the Fund, including the selection of the securities in the Fund's portfolio and promoting sales of the Fund's units. For the purposes of this document, the terms Chou Associates Management Inc. and "the Manager" are interchangeable. Full contact information for the Manager is located at the end of this report.

## Management Discussion of Fund Performance

### Investment Objective and Strategies

Chou Associates Fund's (the "Fund") objective is to provide long-term growth of capital by investing primarily in equity securities of the United States ("U.S.") and foreign businesses considered by Chou Associates Management Inc. (the "Manager") to be undervalued. The Fund may also invest in the equity securities of Canadian businesses. The Fund's investments may include common and preferred shares, convertible debentures, options, warrants, government and corporate bonds and short-term indebtedness. The Fund may also use derivatives such as, but not limited to, futures, options, swaps and forward contracts to gain exposure to securities and asset classes consistent with the objectives of the Fund, and to hedge portfolio exposure against losses from foreign currency and domestic currency exposure and changes in securities prices.

The Fund's investment strategy follows a strong discipline with regard to the prices paid to acquire portfolio investments. The level of investment in a particular entity's securities is generally commensurate with the current price of the company's securities in relation to the Manager's assessment of such entity's intrinsic value as determined by various factors. This approach is designed to provide an extra margin of safety, which in turn, serves to reduce the Fund's overall portfolio risk.

### Risk

The risks of investing in the Fund are disclosed in the Fund's most recently filed Simplified Prospectus which can be found on the Fund's website at [www.choufunds.com](http://www.choufunds.com) and SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

As at June 30, 2024, Fairfax Financial Holdings ("Fairfax") held 17.5% of the total outstanding units of the Fund. If Fairfax redeems its units, a significant portion of the Fund's investments may have to be liquidated in order to affect this transaction. The timing of such a liquidation may not be appropriate and all investors may suffer a proportionate loss as a result of such a liquidation. Fairfax agreed in 2002 that it would not exercise any voting rights attached to units of the Fund or otherwise in any manner attempt to influence the affairs of the Chou Funds. This agreement remains in full force and effect and has been complied with by Fairfax to date.

### Market Review

For the first six months of 2024, the market, as measured by the S&P 500, gained 15.29% in US dollars. Technology stocks continued to lead the market higher. Approximately 50% of the S&P 500's gain during the first half of 2024 was attributable to the performance of just three stocks- NVIDIA, Alphabet and Microsoft.

Despite continued geopolitical pressures around the world, the United States economy continues to experience steady economic growth, inflation appears to be under control and the labor market is cooling. Investors are focusing on the Federal Reserve and expect interest rate cuts to begin in the second half of the year.

### Results of Operations

For the six-month period ended June 30, 2024, the Fund increased 10.2% for Series A units and 10.5% for Series F units, after fees and expenses, while the S&P 500 Total Return Index increased 19.4% in Canadian dollars. In U.S. dollars, the Fund increased 6.7% for Series A units and 7.0% for Series F units, while the S&P 500 Total Return Index increased 15.3%.

The major advancers in the year were the equity holdings of EXCO Resources Inc., Synchrony Financial, Wells Fargo & Company, Citigroup Inc. and Ally Financial Inc. The decliners in the year were the warrant holding of Hertz Global Holdings Inc. and the equity holding of Navient Corporation.

## CHOU ASSOCIATES FUND

---

The Canadian currency depreciated against the US dollar, which also positively affected the Fund.

### **Portfolio Update**

The Fund reduced its holding in Hertz Global Holdings Inc. warrant and Berkshire Hathaway Inc.

The Fund also sold off its holdings in Bausch Health Companies Inc.

The Fund initiated investments in Pathward Financial Inc. and Liberty Media Corporation – Liberty SiriusXM.

In the first half of 2024, the Fund received \$184 in income from its securities lending program.

The Fund's net redemptions for the period ended June 30, 2024 were approximately \$7,544,412 for Series A units and the Fund's net subscriptions were approximately \$1,267,119 for Series F units. Out of the net purchases for Series F units, \$242,763 was switched from Series A units following the OEO trailer ban. The Fund's average month-end cash position for the period was 26.6% of the Fund's net assets.

### **Recent Developments**

Fears of a U.S recession from weak economic data and the Bank of Japan's historic policy shift caused the global market turmoil in early August. Geopolitical unrest in the Middle East further heightened safety concerns. Despite central banks cutting rates, the health of the economy remains uncertain. As a result, we anticipate some impacts on the portfolio performance of the Fund in the near term.

On April 16, 2024, the Federal Budget for 2024 announced an increase in the capital gains inclusion rate to 66.7% (up from 50%) for individuals, corporations and trusts. However, to offer some relief to individuals, the rate will stay at 50% for capital gains up to \$250,000 per year. This adjustment means that you, your corporation, or trust may face higher taxes on the sale of assets with significant accrued gains. The new rate will apply to capital gains realized on or after June 25, 2024. There are a range of tax and non-tax factors to consider before you move forward. It's important to reach out to your local tax advisor.

### **Related Party Transactions**

The Manager manages the overall business of the Fund, including selection of the securities in the Fund's portfolio and promoting the sale of the Fund's units. The Manager is also the trustee of the Fund. Investors receive units of a trust when they invest in the Fund. The Manager, as trustee, holds the actual title to the property in the Fund, the cash and portfolio securities, on behalf of the Fund's investors.

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. As of June 30, 2024, the Manager, its officers and directors hold 8.0% of the total outstanding units of the Fund. All transactions with the Manager are carried out at the Fund's net asset value as at the transaction date. During the year, there were no transactions with related parties except in the capacities and instances set out above.

<sup>(1)</sup> This information is derived from the Fund's audited annual and unaudited semi-annual financial statements.

<sup>(2)</sup> Net assets and distributions are based on the actual number of redeemable units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of redeemable units outstanding over the financial period.

<sup>(3)</sup> Distributions were reinvested in additional units of the Fund or paid in cash upon request.

<sup>(4)</sup> This information is provided as at the period end shown and is rounded to the nearest thousand.

<sup>(5)</sup> Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of weekly average net asset value during the period. The Manager may, at its discretion, waive or absorb certain operating expenses. MER includes the waiver or absorption by the Manager of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by the Manager.

<sup>(6)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net asset value during the period.

<sup>(7)</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the financial period. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

The Manager manages the Fund. The Manager is entitled to an investment management fee calculated daily as a percentage of the market value of the net assets equal to 1.5% per annum for Series A units and 1.0% per annum for Series F units, payable monthly. The Manager pays 50 basis points per year trailer fees to dealers out of management fees for Series A units. There is no trailer fee paid out for Series F units.

## Past Performance

### General

The following charts and tables show the Fund's past performance. Rates of return are historical total returns that include changes in unit prices and assume the reinvestment of all distributions. These returns do not take into account any sales charges, redemption fees, other optional expenses or income taxes that the Fund's investors have to pay and which could reduce these returns. The Fund's past performance does not necessarily indicate its future performance.

### Year-by-Year Returns

The following bar charts show the annual performance for each of the Series A and Series F units of the Fund for each of the years shown. Each chart shows, in percentage terms, how an investment on January 1 would have increased or decreased by December 31 for each of the years, and how the performance of the Fund varied from year to year. The return for 2024 is for the six-month period from January 1 to June 30.

## Annual Compound Returns

The following tables<sup>(1)</sup> show the annual compound total return for each of the Series A and Series F units of the Fund. The tables outline the Fund’s past performance for the one-, three-, five-, ten-, and fifteen-year periods ended on June 30, 2024. Also shown for the same periods are the respective historical annual compound total returns of the S&P 500 (the “Index”). The Index is based on the market capitalization of 500 leading companies publicly traded in the U.S. stock market representing all major industries, as determined by Standard & Poor’s. The Index is one of the most commonly followed equity indices and has been widely regarded as the best single gauge of the large cap U.S. equities market since the Index was first published in 1957. The benchmark Index is calculated without the deduction of management fees and fund expenses, whereas the performance of the Fund is calculated after deducting such fees and expenses.
